

Hospital stays are unpredictable. Feel more in control.

You know that your health insurance will be there to help cover the cost of hospital care. And once you head home you should be focused on healing, not stressed about unplanned financial setbacks.

But unexpected costs like out-of-pocket medical bills or extra help around the house can add up quickly – especially if unpaid time away from work is required during recovery. Just a night or two in the hospital can be more than enough to disrupt anyone’s ability to pay their bills and make ends meet. **By pairing Hospital Indemnity Insurance with your medical plan, you can extend your health coverage and help protect your family, lifestyle, and finances from the unexpected.**

How many times have your family and friends experienced a serious injury or illness that required a hospital stay?

How did it create an unexpected emotional or financial strain on the household?

How would you cover out-of-pocket medical expenses and other costs of \$5,000 or more?

Which LifeSecure solutions would be a good fit for you or your family to provide financial support and help with additional costs after a hospital stay?

Hospital Indemnity insurance pays cash benefits directly to you to help with:

- Medical deductibles, co-pays or co-insurance
- Physical therapy/rehabilitation services
- Prescription medication
- Rent/mortgage or other daily bills
- Help with housekeeping and yardwork
